

Leica T Adapter from NOVOFLEX

Mirrorless system cameras belong to the top sellers in the camera market, which is complemented by the new Leica T. As one of the first manufacturers worldwide the Memmingen specialist in accessories is now presenting a series of lens adapters with which already existing lenses can be used with the new Leica T without any problems. Thus, a huge quantity of lenses is available for this new camera. This saves money, while at the same time buying a new camera or switching over is easier.

As all the existing adapters from NOVOFLEX, the new Leica T adapters are entirely Made in Germany and produced on the basis of highest quality standards. They provide a high precise correction of the flange focal distance and permit focusing to infinity. The versions for Nikon, Minolta AF / Sony Alpha and Pentax K feature integrated aperture control and can be used with lenses, which do not have a manual aperture ring. The latest Firmware version (September 2014) needs to be installed to successfully use the adapters with the Leica T!

The following adapters are planned as of September 2014:

Lenses	Order codes
Canon FD	LET/CAN
Contax/Yashica	LET/CONT
Leica M	LET/LEM
Leica R	LET/LER
Leica Thread Mount (M39)	LETLEI
Minolta MD und MC	LET/MIN-MD
M42	LET/CO
Nikon F	LET/NIK
NOVOFLEX A-Mount	LETA
Olympus OM	LET/OM
Pentax K	LET /PENT
Sony Alpha/Minolta AF	LET/MIN-AF
T2	LET/T2

The Leica T adapters will presumably be available by the end of October, 2014.

NOVOFLEX adapters are available for nearly any camera/lens combination. For more details please refer to the adapter finder on the NOVOFLEX home page www.novoflex.de.
